

ARTIST'S STATEMENT

*"The art on display is the physical embodiment of my spirituality.
And this is what we are celebrating here.
Don't assume my work has to have a meaning .
This is a conscious decision
An intellectual approach is not necessary .
If my work confuses you, don't worry.
When clarity comes you will have learn something about yourself!
My help cometh from the creator
And it keeps coming ...
And by understanding this you will know
Art is not always logical."*
